

Lake Gaston Pier-Point Construction

473 Mill Creek Drive
Littleton 27850

Phone: 252-586-4493

A boathouse to shelter your boat and for personal enjoyment is a highly prized feature of homes on Lake Gaston. From a simple A frame roofed boat shelter to a customized structure for entertaining, Pier-Point Contractors delivers premium quality from the design phase through completion of the project. We use AutoCAD to design each structure and create framing plans to engineering specifications. Our boathouses are built to withstand harsh weather and last for generations, constructed with precision attention to safety, structural integrity and premium quality materials. Our sources for specialty materials and design features can provide you with upscale options.
