

Creedle Jones & Alga PC

313 North Main Street
Lawrenceville 23868

Phone: (434) 848-4191

As a locally owned entity, the benefits you expect to realize from the services provided by your accountants differ in many respects from those of a large public company. These different objectives must be recognized by the accountants in their approach and execution of work performed. Your accountants should be able to render a full range of auditing, accounting, tax, financial planning, and business consultation services. In short, we believe our services as Certified Public Accountants must be viewed and approached by us in the context of total service.
